

Main public services

Presentation

This seminar is intended for students in the « public administration careers » masters program. It aims to help students to reflect on which competitive examinations they will choose to write during their fifth year: through exchanges with a large number of people working in the administration, who will talk about their education and career experiences and/or field of expertise; through sessions in which the various competitive examinations will be described and through which they will be able to engage in informed reflection on their strategies; through writing a "mini-dissertation" on a current topic relating to public administration.
